

Student Impact

Participants gained approximately

3.8 MONTHS

of reading growth on average in essential literacy skills

40%

Reading gap closed, on average, between students starting reading level and grade expectations.

Students reading at or above grade level

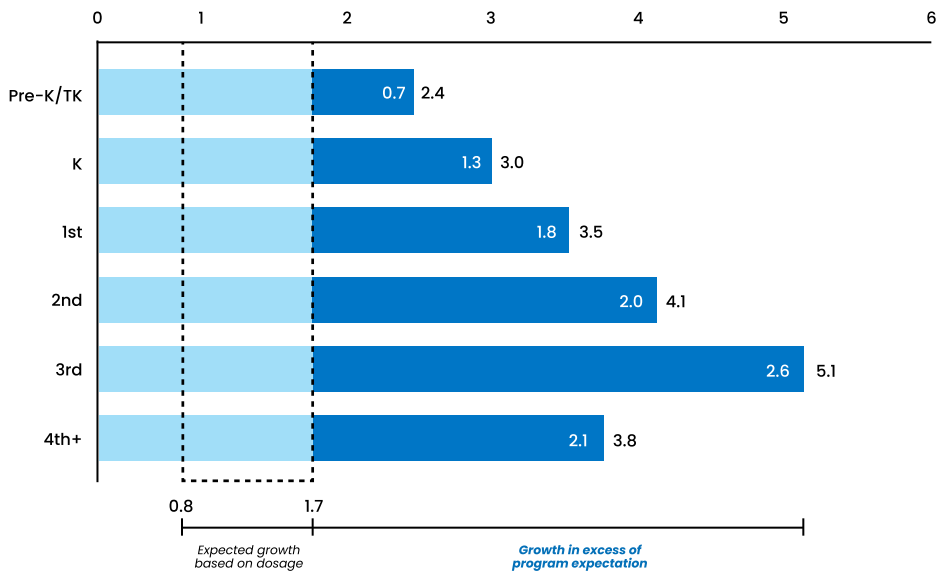

increased 52%

29% 44%

Before Springboard Collaborative

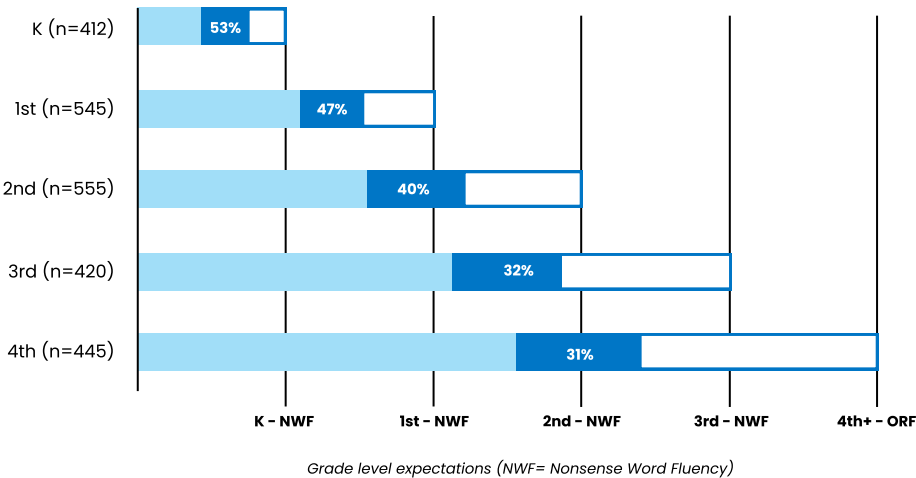

After Springboard Collaborative

Months of reading growth in 3–6 weeks

Note: N=3,825 students who participated in Springboard Collaborative summer 2025 programming. Pre-K expected growth is based on Kindergarten expectations, as no Pre-K DIBELS 8th growth standard is established.

% of reading gap closed by grade level

Key

- Avg. reading achievement before Springboard Collaborative
- Avg. reading gain after Springboard Collaborative
- Avg. remaining reading gap to reach grade level expectations

Note: N = 3,825 students who participated in Springboard Collaborative summer 2025 programming and started programming reading below grade level.

“Knowing that our early literacy tutors are so well trained is a huge weight off my mental load. It means our students get high-quality phonics instruction during the school year and continue to get that same quality instruction during the summer.”

— Casey Beckner, Summer School Principal, Oakland Unified School District

Family Impact

When parents are engaged as learning partners, **reading outcomes are amplified.**

BEFORE SPRINGBOARD COLLABORATIVE

Children spent 12 minutes reading at home every day on average

AFTER SPRINGBOARD COLLABORATIVE

Children spent 17 minutes reading at home every day on average

42% increase!

90%

of families attend Springboard Collaborative workshops to support their children's reading goals

92%

of families agreed that Springboard Collaborative helped their student grow as a reader

90%

of families agreed that Springboard helped them spend more time reading with their student

90%

of families agreed that Springboard helped me to learn strategies to motivate my student to read

Educator + District Leader Impact

566

trained educators used Springboard Collaborative's playbook in their classrooms

94%

of participants agreed that family workshops helped them to **build relationships** with students' families

100%

of participants say working with Springboard helped them **develop as a teacher/leader**

94%

of participants agreed the family workshops helped **improve families' reading habits**

91%

of participants agreed Springboard helped them feel more confident **communicating about reading with my students' families**

By The Numbers
